

Double Sided Printer

1. Print pages 1-2 of this document double-sided
2. Cut excess white space. You'll have a 2" x 8" bookmark!

Single Sided Printer

1. Print page 1 of this document single-sided
2. Flip the printed page over, return to printer, and print page 2
3. Cut excess white space. You'll have a 2" x 8" bookmark!

For best results, I recommend using a thick paper such as card stock when printing at home. If you don't have a printer, you can also use printing services at stores like Staples or Office Depot.

*Books that shine
light in the darkness.*

BOOK 1 OF THE
WAITING TRILOGY

A summer camp romance where he falls first
for a ghost... even if he'll never see her again.
